

Publikationsverzeichnis Prof. Dr. med. Bernd Rosenhammer

Stand 05/2024

Originalarbeiten

Koch MA, **Rosenhammer B**, Koschade SE, Braunger BM, Volz C, Jäggle H, Tamm ER. Myocilin modulates programmed cell death during retinal development. *Exp Eye Res.* 2014; 125:41-52. (geteilte Erstautorenschaft)

Koch MA, **Rosenhammer B**, Paper W, Volz C, Braunger BM, Hausberger J, Jäggle H, Tamm ER. Mutated olfactomedin 1 in the interphotoreceptor matrix of the mouse retina causes functional deficits and vulnerability to light damage. *Histochem Cell Biol.* 2017; 147(4):453-469.

Sayedahmed K, **Rosenhammer B**, Spachmann PJ, Burger M, Aragona M, Kaftan BT, Olianas R, Fritsche HM. Bicentric prospective evaluation of corporoplasty with porcine small intestinal submucosa (SIS) in patients with severe Peyronie's disease. *World J Urol.* 2017; 35(7):1119-1124. (geteilte Erstautorenschaft)

Rosenhammer B, Spachmann PJ, Burger M, Fritsche HM, Schnabel MJ. Prospective Evaluation of Predictive Parameters for Urinary Tract Infection in Patients with Acute Renal Colic. *J Emerg Med.* 2018; 55(3):319-326.

Rosenhammer B, Lausenmeyer EM, Mayr R, Burger M, Eichelberg C. HoLEP provides a higher prostate cancer detection rate compared to bipolar TURP: a matched-pair analysis. *World J Urol.* 2018; 36(12):2035-2041.

Rosenhammer B, Lausenmeyer EM, Mayr R, Burger M, Eichelberg C. Holmium Laser Enucleation of the Prostate Provides Similar Incidental Prostate Cancer Detection Rates as Open Prostatectomy: A Matched Pair Analysis. *Urol Int.* 2018; 20:1-5.

Bründl J, Wallinger S, Breyer J, Weber F, Evert M, Georgopoulos NT, **Rosenhammer B**, Burger M, Otto W, Rubenwolf P. Expression, localisation and potential significance of aquaporins in benign and malignant human prostate tissue. *BMC Urol.* 2018; 18(1):75.

Rosenhammer B, Sayedahmed K, Fritsche HM, Burger M, Kübler H, Hatzichristodoulou G. Long-term outcome after grafting with small intestinal submucosa and collagen fleece in patients with Peyronie's disease: a matched pair analysis. *Int J Impot Res.* 2019; 31(4):256-262.

Rosenhammer B, Ganzer R, Zeman F, Näger T, Fritsche HM, Blana A, Burger M, Bründl J. Oncological long-term outcome of whole gland HIFU and open radical prostatectomy: a comparative analysis. *World J Urol.* 2019; 37(10):2073-2080.

Rosenhammer B, Niessen C, Rotzinger L, Reiss J, Schnabel MJ, Burger M, Bründl J. Oncological Outcome and Value of Postoperative Magnetic Resonance Imaging after Focal High-Intensity Focused Ultrasound Therapy for Prostate Cancer. *Urol Int.* 2019; 103(3):270-278.

Sayedahmed K, Olianias R, Kaftan B, Omar M, El Shazly M, Burger M, Mayr R, **Rosenhammer B**. Impact of previous urethroplasty on the outcome after artificial urinary sphincter implantation: a prospective evaluation. *World J Urol.* 2020; 38(1):183-191.

Bründl J, Lenart S, Stojanoski G, Gilfrich C, **Rosenhammer B**, Stolzlechner M, Ponholzer A, Dreissig C, Weikert S, Burger M, May M. Peritoneal flap in robot-assisted radical prostatectomy - results of a multicenter, randomized, single-blind study (PIANOFORTE) of the efficacy in reducing postoperative lymphocele. *Dtsch Arztebl Int* 2020; 117:243–50.

Rosenhammer B, Schönhärl M, Mayr R, Schnabel MJ, Burger M, Eichelberg C. Introduction of a New Score to Assess Surgical Efficiency in Holmium Laser Enucleation of the Prostate. *Urol Int* 2020;104(11-12):914-922.

Goßler C, May M, **Rosenhammer B**, Breyer J, Stojanoski G, Weikert S, Lenart S, Ponholzer A, Dreissig C, Burger M, Gilfrich C, Bründl J. Obesity leads to a higher rate of positive surgical margins in the context of robot-assisted radical prostatectomy. Results of a prospective multicenter study. *Cent European J Urol* 2020;73(4):457-465.

Bründl J, Osberghaus V, Zeman F, Breyer J, Ganzer R, Blana A, Gierth M, Denzinger S, Burger M, **Rosenhammer B**. Oncological Long-term Outcome After Whole-gland High-intensity Focused Ultrasound for Prostate Cancer-21-yr Follow-up. *Eur Urol Focus* 2022 Jan;8(1):134-140.

Goßler C, May M, Breyer J, Stojanoski G, Weikert S, Lenart S, Ponholzer A, Dreissig C, Burger M, Gilfrich C, Bründl J, **Rosenhammer B**. High BMI, Aggressive Tumours and Long Console Time Are Independent Predictive Factors for Symptomatic Lymphocele Formation after Robot-Assisted Radical Prostatectomy and Pelvic Lymph Node Dissection. *Urol Int* 2021;105(5-6):453-459.

Schnabel MJ, **Rosenhammer B**, Steckermeier M, Fritsche HM, Burger M, Spachmann PJ. Miniaturized percutaneous Nephrolithotomy without antibiotic prophylaxis: a single institution experience. *Int Urol Nephrol* 2021 Aug;53(8):1551-1556.

Sayedahmed K, **Rosenhammer B**, Burger M, Goßler C. Early Revision after Artificial Urinary Sphincter Implantation Does Not Impair the Long-Term Treatment Success. *Urol Int* 2022;106(3):261-268.

Sayedahmed K, Omar M, **Rosenhammer B**, Burger M, Goßler C. Onlay Pedicled Transverse Skin Flap versus One-Stage Inlay Buccal Mucosal Graft in Penile Urethroplasty: A Prospective Matched-Pair Analysis. *Urol Int* 2023;107(4):383-389.

Pickl C, Engelmann S, Girtner F, Gužvić M, van Rhijn BWG, Hartmann V, Holbach S, Kälble S, Haas M, **Rosenhammer B**, Breyer J, Burger M, Mayr R. Body Composition as a Comorbidity-Independent Predictor of Survival following Nephroureterectomy for Urothelial Cancer of the Upper Urinary Tract. *Cancers (Basel)* 2023 Jan 10;15(2):450. (Geteilte Senior-Autorenschaft)

Goßler C, Pfänder F, Haas M, Mayr R, Gierth M, Burger M, **Rosenhammer B**, Breyer J. Risk factors for bladder neck contracture after transurethral resection of the prostate. *Prostate* 2023 Apr 23.
